Travis County Mediators

Travis County Mediators provides mediation services for a variety of legal disputes, ranging from simple, single issue cases to large scale, multi-party matters involving complex claims. As practicing attorneys, our mediators recognize the value of mediation in every case regardless of the amount in controversy, and understand that mediation has not always been available as a cost-effective alternative in smaller cases. We believe that cost should not be a barrier to mediation and offer competitive rates making mediation a real alternative in every type of case.

Our mediators are dedicated to providing creative solutions in a comfortable and professional environment. For your convenience, mediations may be performed onsite in our conference rooms, or, if preferred, our mediators are available for travel in or outside the Austin metroplex. Additional charges may apply depending upon location, availability, and other factors.
